OUR RACE

*Our main goal is to see you smile.
The race isn't for professionals only,
but also for those who see sport as love, opsession and fun.
Allow us to tell you the story as it really is,
without many additions, and carve it
in your memory in the best way.
Yes, we, the locals from Sombor -so called „lale“,
take actions slowly, and enjoy
everything to the fullest, step by step...
Ten or three hundred runners, the best ones
or few of those slower ones, older and younger,
boys and girls, skilfull ones, or motivated beginners...*

*You are all welcome...
All you need is a pair of cosy running shoes and a smiley face.
You'll find the strength you need
as soon as you arrive to Sombor.
Truth to be told, running through the town
that has got a great heart and soul, along the streets,
escorted by people applauding,
cheering, boosting your strength... it's priceless.
We are here to help you create a story about
a nice run through Sombor, because, believe us,
running once through*

Sombor will make you come back again.

DAMIR MARKOVIĆ

- RACE DIRECTOR -

*The first half marathon in Sombor was held forty years ago.
Ten years ago I ran my first race – Sombor Half marathon.*

*Just a year after my first race,
I got the opportunity to organize one myself.*

It was the love at first sight.

*It was simple – we gave the runners exactly what we expected to feel
ourselves while racing.*

Only, we had the responsibility to keep the tradition going.

*What makes Sombor Half marathon what it is, are the runners,
equally those who actually run the race and also
those who organize the whole event.*

*The team takes credits for the whole organization. Those are people whose
motivation is doing something they love,
and they love their town and its glorious race.*

*That is why we are genuine and totally
determined when we organize Sombor Half marathon*

*which is a part of every racer,
part of their soul and their passion – passion for changing themselves,
their background and being able to say – I can do anything I want.*
